SUMMARY

Computer Science student specializing in iOS development (Swift) and AI integration. Proven ability to build functional, user-centric mobile applications and machine learning prototypes. Eager to leverage hands-on coding experience and technical problem-solving skills to contribute to an innovative software engineering team.

EDUCATION

Bachelor of Science in Computer Science

Mapúa Malayan Colleges Laguna (2022 - Expected 2027)

Science, Technology, Engineering, and Technology (STEM) Strand

University of Perpetual Help System DALTA Calamba (2018 - 2020)

TECHNICAL SKILLS

Languages: Python, HTML/CSS, PHP, Swift, Javascript, C#, SQL

Frameworks & Libraries: SwiftUI, CoreML, Laravel, Scikit-Learn, TensorFlow, OpenCV, Flask

Developer Tools: Git/Github, VS Code, Postman, Google Cloud, XAMPP, Xcode, SQLite

PROJECTS

e-Profile: A Digital Profiling System | PHP, Laravel, MySQL

- Engineered a centralized web-based profiling platform to digitize client record management for the CSWDO of Santa Rosa, Laguna, replacing legacy paper workflows.
- Implemented Role-Based Access Control (RBAC) to secure sensitive citizen data in compliance with the Philippine Data Privacy Act of 2012.
- Optimized database architecture and reporting modules, cutting record retrieval and report generation time by at least 50%.

Wander: Philippine Travel Mobile App | Android, Java/Kotlin, Firebase

- Developed a native Android travel application focused on exploring premier destinations across the Philippines with a user-friendly mobile interface.
- Designed interactive UI layouts and navigation components to ensure a seamless exploration experience for users on mobile devices.

CERTIFICATIONS

Google AI Professional Certificate | Google | 2026

Introduction to Bash Shell Scripting | Coursera | 2025
